Professional Summary

Backend Software Engineer with 4+ years of experience designing scalable microservices using Python, FastAPI, Django, PostgreSQL, Redis, Docker, Kubernetes and AWS. Passionate about distributed systems, performance optimization, clean architecture, CI/CD and cloud-native applications.

Skills

Python, FastAPI, Django, Flask, PostgreSQL, MySQL, MongoDB, Redis, SQLAlchemy, Alembic, Docker, Kubernetes, AWS EC2, AWS S3, Git, GitHub, GitHub Actions, Linux, Nginx, RabbitMQ, Celery, JWT Authentication, OAuth2, WebSockets, REST API, GraphQL, Microservices, Pytest, HTML, CSS, JavaScript, TypeScript, React, Tailwind CSS.

Experience

Senior Backend Developer - XYZ Technologies

July 2023 - Present

- Designed 25+ microservices using FastAPI.
- Built JWT authentication and OAuth2 login.
- Improved API performance by 45% using Redis caching.
- Developed background workers with Celery and RabbitMQ.
- Containerized applications with Docker and deployed to Kubernetes.
- Configured GitHub Actions for CI/CD.

Backend Developer - ABC Software Pvt Ltd

June 2021 - June 2023

- Built REST APIs for ERP and CRM systems.
- Optimized PostgreSQL queries and indexing.
- Wrote 300+ unit tests using Pytest.
- Integrated AWS S3 for document storage.
- Implemented WebSocket notifications.

Education

Bachelor of Technology in Computer Science

Dr. A.P.J. Abdul Kalam Technical University

2017 - 2021

CGPA: 8.74/10

Projects

AI Interview Platform

Technologies: FastAPI, React, PostgreSQL, Redis, Docker, Kubernetes, OpenAI, WebSockets
Built an AI-powered interview platform supporting resume parsing, ATS scoring, real-time coding interviews, JWT authentication, analytics dashboard and AI feedback.

E-Commerce Platform

Technologies: Django, PostgreSQL, Redis, Celery, AWS S3, Stripe
Implemented product catalog, payment gateway, order management, inventory tracking and email notifications.

Real-Time Chat Application

Technologies: FastAPI, WebSockets, Redis, React, JWT
Built scalable real-time messaging with online presence, typing indicators and group chat support.

Certifications

AWS Certified Cloud Practitioner
Docker Essentials
Python for Backend Development
Kubernetes Fundamentals

Achievements

- Solved 700+ coding problems.
- Winner of University Hackathon 2020.
- Open-source contributor on GitHub.

Languages

English, Hindi, German (Basic)
